Department of Housing and Public Works

Overview

The Department of Housing and Public Works' (the department) vision is 'A brighter future for Queenslanders through housing, building and service innovation'. The purpose of the department is to deliver a place to call home for more Queenslanders, respect taxpayers' money and create more opportunities through better government procurement, enhance youth engagement, support a thriving nightlife economy, and to make Queensland the building capital of the nation through a productive construction sector.

The department will deliver its vision through the following objectives:

- Secure Queensland's housing foundations
- Unlock potential
- Build Queensland's future.

The department contributes to the *Government's objectives for the community*[1] by working to provide *A better lifestyle through a stronger economy* and *A plan for Queensland's future* by:

- delivering more social and community housing
- providing housing and homelessness services and support for vulnerable Queenslanders
- facilitating a range of programs and initiatives to prepare young Queenslanders for a prosperous future
- making it simpler for government buyers and suppliers to do business with government
- driving reforms to improve productivity in the construction sector and make it easier to build in Queensland
- managing capital works projects, design, government property and accommodation services.

Key deliverables

In 2026-27, the department will:

- provide frontline housing and homelessness supports that prioritise long-term housing options and deliver interim responses when other options are exhausted, including social and private housing assistance, strengthened tenancy management for social and community housing, specialist homelessness support services and crisis and temporary supported accommodation
- continue to deliver 53,500 social and community homes by 2044, supported by a record four-year capital program of $5.725 billion state-wide and ongoing baseline funding of at least $500 million per year ongoing thereafter. This continued record investment supports the delivery of more social and community homes, new youth foyers, domestic and family violence shelters and social homes in discrete and remote First Nations' communities
- support home ownership outcomes for Aboriginal and Torres Strait Islander Queenslanders including the implementation of the Palm Island Rent-to-Buy Home Ownership Scheme
- deliver programs to engage and promote young Queenslanders including supporting the delivery of YMCA Queensland Youth Parliament, Queensland Indigenous Youth Leadership Program, Queensland Youth Week and Safer Schoolies initiatives
- support the Queensland Night-life Economy Commissioner to work with nightlife economy businesses, relevant agencies and local council to support, promote and advocate for key aspects of the nightlife economy

[1] To find out more, go to qld.gov.au and search "government's objectives for the community."

- facilitate the delivery of capital works projects on behalf of Queensland Government agencies as well as provide design advice and solutions
- continue to deliver the Building Reg Reno suite of reforms, aimed at making building easier by reducing red tape, modernising legislation and increasing productivity in Queensland's building and construction industry
- continue implementing recommendations from the Queensland Government's response to the Queensland Productivity Commission's construction productivity inquiry Final Report
- lead implementation of the Queensland Procurement Policy 2026 across government departments to ensure respect for taxpayer's money and achieve best-in-class procurement processes, including streamlining and simplifying procurement documentation and processes
- invest in the delivery of safe and secure government employee housing, including renewing and upgrading current owned assets, as part of the government's commitment to attract and retain key frontline staff such as police, health workers, and teachers in remote locations.

Budget highlights

In the 2026-27 Queensland Budget, the government is providing additional funding of:

- $1.024 billion over five years from 2025-26 to support continued delivery of 53,500 social and community homes by 2044, including youth foyers, domestic violence shelters, and social homes in remote and discrete First Nations communities, as part of a record $5.725 billion investment
- $450.1 million over four years and $27.4 million ongoing to 2036-37, to provide continuity for frontline housing and homelessness services, including funding for Specialist Homelessness Services, and to support peak and industry bodies
- $83.4 million over three years to continue private rental market tenancy support programs
- $6.4 million over four years and $1.6 million ongoing for the effective and efficient regulation of the regulated accommodation sector including community housing providers, disability accommodation, retirement villages, residential parks and residential services
- $1.9 million over two years to support the continued delivery of the Queensland Youth Parliament and Queensland Indigenous Youth Leadership Program.

Further information about new policy decisions can be found in *Budget Paper No. 4: Budget Measures*.

Performance statement

Housing, homelessness and youth services

Objective

Benefit Queenslanders and their communities by providing housing, homelessness and youth services that are responsive, integrated, and accessible, and enrich the lives of Queenslanders.

Description

The service area:

- funds and delivers safe, secure social and community housing, homelessness services and the coordination of person-centred support which meets the needs of Queenslanders and enables social and economic participation
- delivers frontline services for Queenslanders in housing need, including people experiencing, or at risk of homelessness including women and families experiencing domestic and family violence, and vulnerable young people
- partners with peak bodies, Indigenous Community Housing Organisations, Aboriginal and Torres Strait Islander Councils and non-government organisations to improve outcomes for First Nations people in accessing appropriate sustainable housing
- facilitates and supports opportunities for young Queenslanders to build their leadership capabilities and be involved in shaping government policies, programs, and services on matters of importance that impact them and ensures the Schoolies holiday period is as manageable, safe and respectful as possible for schoolies and local communities.

Percentage of participants who identify as having improved leadership capabilities as a result of attending a youth leadership program[7]	90%	99%	90%
Efficiency measure			
Not identified			

Notes:

1. The 2025-26 Estimated Actual reflects customer perceptions at a point-in-time when completing the survey. Customer perceptions are influenced by factors including tenant characteristics, housing condition, and wellbeing attributes. Further analysis of jurisdictional results is available in the National social housing survey 2025 available from the Australian Institute of Health and Welfare website. A high proportion of households were estimated to be satisfied or very satisfied with the service provided across public housing and community housing. Queensland continues to have higher satisfaction levels for public housing compared to national results, while community housing satisfaction was similar to national results.
2. A 2026-27 Target/Estimate has not been included as this service standard is based on a biennial survey, with the most recent survey undertaken in 2025. The next survey is scheduled in 2027-28. Customer satisfaction data is sourced from the Australian Institute of Health and Welfare, National Social Housing Survey and published in the *Report on Government Services*.
3. The variance between the 2025-26 Target/Estimates and 2025-26 Estimates Actual is due to the tightening of private market conditions statewide and the combination of reduced tenancy turnover and therefore fewer new allocations have contributed to an increase in the average wait time for allocation to government-owned and managed social rental housing.
4. The wording of this service standard has been amended from the 2025-26 SDS to include the full name of each guideline. The previous wording for this measure was "Proportion of newly constructed social dwellings supported by the Queensland Government meeting the Livable or Social Housing Design guidelines gold or platinum level". The calculation methodology has not changed. The positive variance between the 2025-26 Target/Estimate and the 2025-26 Estimated Actual reflects the current proportion of social homes built to a gold or platinum level in 2025-26 as at 31 May 2025. The actual 2025-26 proportion is subject to change.

5. The increase between the 2025-26 Target/Estimate and the 2026-27 Target/Estimate is primarily due to enterprise bargaining increases.
6. The variance between 2025-26 Target/Estimates and the 2025-26 Estimated Actual reflects ongoing additional investment in homelessness responses, including increased funding for Specialist Homelessness Services.
7. The positive variance between the 2025-26 Target/Estimate and the 2025-26 Estimated Actual continues the program's strong historical performance against this service standard. Ongoing annual program improvements ensure the delivery of consistently high-level outcomes.

Building and government accommodation services

Objective

Support the building and construction sector to be productive and well-functioning to deliver the homes and infrastructure Queensland needs. Deliver complex government projects and provide fit-for-purpose, well-utilised and sustainable government office accommodation and employee housing.

Description

The service area:

- contributes to a safer, fairer and more productive building and construction industry and responds to emerging issues
- assists government agencies in the delivery of major government building and construction projects, quality office accommodation and property solutions, and safe and secure government employee housing for frontline workers to support Queensland's growing communities
- provides leadership and strategic advice on urban design and the built environment to government departments, local councils and the private sector.

Service standards	2025-26 Target/Est.	2025-26 Est. Actual	2026-27 Target/Est.
Effectiveness measures			
Return on investment: • Commercial properties included in the office portfolio[1]	≥6%	5.4%	≥6%
Vacancy rate:			
• Office portfolio[2]	≤3.5%	0.94%	≤3.5%
• Government employee housing[3]	≤4%	0.77%	≤4%
Percentage of government-owned employee housing with an acceptable facility condition index rating	≥90%	92%	≥90%
Energy performance – percentage of occupied government office accommodation achieving a rating greater than or equal to 5-star under the National Australian Build Environmental Rating System	80%	80%	80%
Work point density:			
• Average	13.5m^2 per person	13.3m^2 per person	13.5m^2 per person
• New and refurbished fitout	12m^2 per person	11.8m^2 per person	12m^2 per person
Percentage of sub-contracts awarded to local companies[4]	75%	97%	75%
Efficiency measure			
New and refurbished office fitout – cost per square metre[5]	≤$1,530 per square metre	$1,800 per square metre	≤$1,800 per square metre

Notes:

1. The variance between the 2025-26 Target/Estimate and the 2025-26 Estimated Actual is due rising operating costs not being offset by increased rent revenue.
2. The positive variance between the 2025-26 Target/Estimate and the 2025-26 Estimate Actual is due to minimising vacancies through centralised lease management and relocating agencies with expiring leases into vacancies where possible.

3. The positive variance between the 2025-26 Target/Estimate and the 2025-26 Estimated Actual is due to the continued high demand from agencies for government employee homes leading to a shortage of available stock to lease in regional and remote communities.
4. The positive variance between the 2025-26 Target/Estimate and the 2025-26 Estimated Actual demonstrates the effectiveness of efforts to maximise opportunities for local businesses.
5. The 2026-27 Target/Estimate has been set at ≤$1,800 per square metre to align with the increase in industry costs.

Procurement policy and enabling services

Objective

Lead best-in-class procurement across government to ensure good outcomes and value for Queenslanders by making every dollar count. Provide advisory services with comprehensive stakeholder support for procurement related policy implementation and data-driven processes.

Description

The service area:

- provides expert advisory, assurance, enabling and support procurement services to government agencies, including category management for general goods and services
- provides procurement services that enable suppliers to reduce the cost of doing business with the Queensland Government and supports employment and better social outcomes for communities.

Service standards	2025-26 Target/Est.	2025-26 Est. Actual	2026-27 Target/Est.
Effectiveness measure			
Overall client satisfaction regarding provision of engagement activities in the policy development and implementation process	≥90%	91%	≥90%
Efficiency measures			
Operating cost per $1,000 of managed spend on general goods and services	<$2	$0.99	<$2
Total cost per hour of procurement policy government decision support, governance support and advisory services, and engagement and events	$138.52	$135.20	$140.26

Departmental budget summary

The table below shows the total resources available in 2026-27 from all sources and summarises how resources will be applied by service area and by controlled and administered classifications.

Department of Housing and Public Works	2025–26 Adjusted Budget $'000	2025–26 Est. Actual $'000	2026–27 Budget $'000

Transfers to government	114	114	114
Administered expenses	99,198	196,449	120,400
Total expenses[5]	**99,312**	**196,563**	**120,514**
Net assets	**(4,213)**	**(3,715)**	**(3,715)**

Notes:

1. The 2025-26 Adjusted Budget and 2025-26 Estimated Actuals information disclosed is presented on a post-machinery of government basis.
2. Includes state and Federal Government funding.
3. The cost of internal Corporate Services has been allocated to Service Areas. The amounts shown in the above table for Corporate Services costs mainly represent recoveries from the commercialised business units (QBuild and QFleet) and external departments including the Department of Customer Services, Open Data and Small and Family Business, Department of Trade, Employment and Training, Department of Justice and the Department of Transport and Main Roads for Corporate Services provided by the department on their behalf.

4. The deficit primarily relates to depreciation expenses on the social housing property portfolio.
5. The variance is primarily due to operational support provided to the Queensland Building and Construction Commission being held centrally by government in the 2025-26 Adjusted Budget and the 2026-27 Budget.

Staffing

The table below shows the Full Time Equivalents (FTEs) as at the 30 June in the respective years.

Service area[1]	2025-26 Adjusted Budget[2]	2025-26 Est. Actual[2, 3]	2026-27 Budget[4]
Housing, homelessness and youth services	1,771	1,763	1,750
Building and government accommodation services	228	253	253
Procurement policy and enabling services	124	105	106
Total FTEs[2,3,4]	**2,123**	**2,121**	**2,109**

Notes:

1. Corporate FTEs are allocated across the service to which they relate.
2. The 2025-26 Adjusted Budget and 2025-26 Estimated Actual information is presented on a post-machinery-of-government basis, after taking into account a transfer to the Department of Customer Services, Open Data and Small and Family Business of identified Technology and Digital Services (TDS) resources providing them with Corporate ICT services.
3. The variance between 2025-26 Adjusted Budget and 2025-26 Estimated Actual is predominately due to the reallocation of Corporate FTE following the TDS machinery-of-government change, effective from 1 July 2025.
4. The variance between 2025-26 Estimated Actual and 2026-27 Budget is predominately due to the completion of limited-life programs.

Capital program

The department's capital program for 2026-27 is $1.782 billion, including capital purchases of $1.061 billion and capital grants of $721.2 million.

Highlights within Capital Purchases include:

- $861.2 million to support continued delivery of 53,500 social and community homes by 2044, including $731.6 million to deliver and upgrade social housing, and $129.6 million to deliver and upgrade First Nations social housing
- $168.6 million to deliver and upgrade fit for purpose and secure government employee housing throughout Queensland to attract and retain key frontline staff.

Highlights within Capital Grants include:

- $714.2 million to deliver Queensland's Housing Investment Pipeline in partnership with registered housing providers including $601.6 million for new and upgraded community housing and $112.6 million for new and upgraded community housing and land infrastructure development in First Nations communities
- $7 million to eligible homeowners to raise, repair or retrofit their homes to incorporate flood resilient design and materials to reduce the impacts of future flood events.

The table below shows the total capital outlays by the agency in the respective years.

	2025-26 Adjusted Budget $'000	2025-26 Est. Actual $'000	2026-27 Budget $'000
Capital purchases	951,464	1,128,818	1,060,543
Capital grants	580,193	675,782	721,162
Total capital outlays	**1,531,657**	**1,804,600**	**1,781,705**

Further information about the Department of Housing and Public Works capital outlays can be found in *Budget Paper No. 3: Capital Statement*.

Budgeted financial statements

Departmental income statement

Controlled income statement

Total revenue is estimated to be $3.496 billion in 2026-27, a decrease of $108 million from the 2025-26 Estimated Actual. The decrease is mainly changes in the timing of delivery of various programs and initiatives.

Total expenses are estimated to be $3.692 billion in 2026-27, a decrease of $95.8 million from the 2025-26 Estimated Actual. The decrease is predominately due to changes in the timing of delivery of various programs and initiatives.

The deficits shown primarily relate to depreciation expenses on the social housing property portfolio.

Administered income statement

For 2026-27 the department will administer funds for the Residential Tenancies Authority and QBuild. Budgeted financial statements for commercial business units and statutory bodies are separately reported within the 2026-27 Service Delivery Statements.

The department will also administer $37.1 million in grant payments made in response to natural disasters on behalf of the Queensland Government and the Australian Government, for example, approved accommodation assistance including rental support grants and flexible housing solutions.

Total revenue and expenses are estimated to be $120.5 million in 2026-27, a decrease of $76 million from the 2025-26 Estimated Actual. The decrease is mainly due to operational support provided to the Queensland Building and Construction Commission in 2025-26 being held centrally by government in 2026-27. Additionally, the 2025-26 Estimated Actual includes support provided to the Queensland Building and Construction Commission for the Digital Transformation Roadmap, and both the 2025-26 Estimated Actual and 2026-27 Budget include support provided to QBuild to deliver Tranche 1 of the Build to Enable program.

Departmental balance sheet

The department is projecting a net asset position of $31.856 billion at the end of the 2026-27 financial year. This reflects the department's significant investment in property, plant and equipment of $33.559 billion that mainly relates to social housing located across Queensland.

Controlled income statement

Commercialised business units

QBuild

Overview

QBuild provides customers with the benefits of operating efficiencies, greater value for money and strong business partnerships. QBuild's purpose is to deliver state-wide planning, building, maintenance and recovery services that support Queensland Government agencies to deliver their core services to Queenslanders.

QBuild's objectives are to:

- Provide state-wide planning, building, maintenance and recovery services
- Be the Queensland government's trusted builder and maintenance provider
- Support Queensland regional jobs
- Build capability by utilising local suppliers and QBuild apprentices.

QBuild contributes to the *Government's objectives for the community*[1] by working to provide *A better lifestyle through a stronger economy* and *A plan for Queensland's future* by:

- supporting Queensland regional jobs utilising local suppliers; and providing rapid response to communities affected by natural disasters and other major events, to ensure government agencies' assets become operational quickly and restoring essential services to Queenslanders
- training young people in apprenticeships and contributing to a trade-qualified future workforce to deliver construction and maintenance services and assisting the growth of the state's building and construction industry.

Key deliverables

In 2026-27, QBuild will:

- deliver high-quality government construction and maintenance services and responsive and effective disaster responses through a skilled trade-based workforce and robust apprenticeship program
- work directly with industry to maximise local supplier participation for small and medium businesses
- partner with industry to deliver maintenance and construction services across government infrastructure portfolios focusing on a construction-method agnostic approach guided by value for money, speed of delivery, quality of outcome and scalability.

[1] To find out more, go to qld.gov.au and search "government's objectives for the community."

Performance statement

QBuild

Objective

To be the trusted building experts for Queensland government agencies, by providing state-wide planning, building, maintenance and recovery services via the rapid response and rectification of public assets that utilise local suppliers and QBuild trade staff, including apprentices, fostering training opportunities to support the growth of the construction industry and regional jobs.

Description

QBuild is a commercialised business unit, working in and for communities, including regional areas across Queensland, supporting government agencies with planning, building, maintenance, and recovery services whilst committing to the highest standards of workplace health and safety.

Leveraging a strong and skilled workforce, QBuild works directly with industry to maximise local supplier participation and create jobs state-wide through the QBuild apprenticeship program. QBuild's geographic presence enables immediate response to communities affected by natural disasters and other major events, working with government agencies to ensure assets become operational quickly and services are returned to Queenslanders.

Service standards	2025-26 Target/Est.	2025-26 Est. Actual	2026-27 Target/Est.
Effectiveness measures			
Overall customer satisfaction[1]	70%	67%	..
Percentage of outsourced maintenance spend on QBuild's customers' facilities with local suppliers (based on physical location of contractor's workplace)[2]	80%	80%	80%
Percentage of successful QBuild apprentice completions within the financial year	70%	73%	70%
Efficiency measures			
Total current assets over total current liabilities[3]	1.66:1	1.61: 1	1.75:1
Gross profit as a percentage of revenue generated from work delivered on behalf of QBuild customers[4]	6.7%	8.2%	8.0%
Net profit before tax and dividends as a percentage of sales[5]	0.6%	2.5%	1.1%

Notes:

1. A 2026-27 Target/Estimate has not been presented as this is a biennial service standard that measures overall customer satisfaction of QBuild services delivered. The next customer satisfaction survey will be conducted in 2027-28.
2. The wording of this service standard has been amended to remove "Zone 1" to meet the requirements of the Queensland Purchasing Policy (QPP) 2026. It was previously worded "Percentage of outsourced maintenance spend on QBuild's customers' facilities with Local Zone 1 suppliers (based on physical location of contractor's workplace)". The calculation methodology has not been changed.
3. This measure reflects the ability to meet short-term debt obligations and is measured by comparing the level of Current Assets to Current Liabilities at 30 June. The variance between 2025-26 Estimated Actual and 2026-27 Target/Estimate is mainly due to lower liabilities as it is anticipated that associated obligations will have been met in 2026-27. The variance between 2025-26 Target/Estimate and 2026-27 Target/Estimate is mainly due to lower liabilities as it is anticipated that associated obligations will have been met in 2026-27, as well as movements associated with the increase in products and services delivered.

4. This measure is calculated as sales less direct costs associated with providing those services. The costs do not include overhead and administrative costs. Gross profit as a percentage of sales is a standard financial measure. The variance between 2025-26 Target/Estimate and 2025-26 Estimated Actual and 2026-27 Target/Estimate mainly reflects the movement in the products and services delivered and the related gross profits achieved.
5. This measure represents the gross profit less overhead and administrative costs. Net profit as a percentage of sales is a standard financial measure. The variance between 2025-26 Target/Estimate and 2025-26 Estimated Actual mainly reflects the increase in products and services delivered, and lower expenses due to a pause in business system projects. The variance between 2025-26 Estimated Actual and 2026-27 Target/Estimate mainly reflects a decrease in the products and services delivered, and an increase in business system costs associated with the Build to Enable program. The variance between 2025-26 Target/Estimate and 2026-27 Target/Estimate mainly reflects an increase in the products and services delivered.

Budget summary

Staffing

The table below shows the Full Time Equivalents (FTEs) as at the 30 June in the respective years.

Service area	2025-26 Budget	2025-26 Est. Actual	2026-27 Budget
QBuild	2,449	2,442	2,439
Total FTEs	**2,449**	**2,442**	**2,439**

Notes:

1. Corporate FTEs are allocated across the service to which they relate.
2. The variances between 2025-26 Budget and 2025-26 Estimated Actual is predominately due to the transfer of FTE to the Department of the Premier and Cabinet for the graduate program, with minor additional reallocation of FTE across the reporting entity (Building and Government Accommodation Services) to support service delivery demand.
3. The variance between 2025-26 Estimated Actual and 2026-27 Budget is due to the transfer of FTE to the Department of the Premier and Cabinet for the graduate program.

Capital program

Total capital program for QBuild is $4.5 million in 2026-27. Program highlights include:

- $3.4 million to continue office and depot infrastructure upgrades across the State.

The table below shows the total capital outlays by the agency in the respective years.

	2025-26 Budget $'000	2025-26 Est. Actual $'000	2026-27 Budget $'000
Capital purchases	2,518	4,238	4,510
Capital grants	..	..	..
Total capital outlays	**2,518**	**4,238**	**4,510**

Further information about QBuild capital outlays can be found in *Budget Paper No. 3: Capital Statement*.

Financial statements

Income statement

Total income in 2026-27 is budgeted to be $1.812 billion, a decrease of $53.2 million from the 2025-26 Estimated Actuals mainly reflecting anticipated client agencies programs of work.

Total expenses in 2026-27 are budgeted to be $1.792 billion, a decrease of $27.5 million from the 2025-26 Estimated Actuals mainly reflecting a decrease in subcontractor and material costs associated with anticipated client agencies programs of work.

Balance sheet

Net assets in 2026-27 are budgeted at $200.5 million, an increase of $7 million from the 2025-26 Estimated Actuals mainly due to lower other liabilities as it is anticipated that associated obligations will have been met and revenue recognised.

QFleet

Overview

QFleet is a trusted partner in fleet management providing whole-of-government fleet solutions and services.

QFleet's purpose is to provide efficient, value for money fleet services enabling Queensland Government agencies to safely deliver essential services to local communities. QFleet will mitigate the environmental impact of the government fleet by reducing tailpipe emissions of the entire QFleet fleet.

QFleet's objectives are:

- To reduce tailpipe emissions of the entire QFleet fleet year on year to achieve ten percent reduction by 2030
- Invest in technologies that enable self-service and support whole-of-government reporting
- Support driver safety in the workplace.

QFleet contributes to the *Government's objectives for the community*[1] by working to provide *A better lifestyle through a stronger economy* and *A plan for Queensland's future* by innovating the government fleet to reduce environmental impact, and provide cost effective, fit-for-purpose fleet solutions that supports the safe delivery of essential services to Queenslanders.

Key deliverables

In 2026-27, QFleet will:

- continue to deliver on the QFleet Vehicle Emission Reduction Strategy 2025-2030 to achieve an overall reduction of QFleet leased vehicle tail-pipe emissions
- continue to offer low emission vehicle options and rationalise available vehicle selection against Minimum Specification requirements including CO2/km emissions
- continue to strengthen agency fleet data and decision-making through real-time reporting and streamlined online processes.

[1] To find out more, go to qld.gov.au and search "government's objectives for the community."

Performance statement

QFleet

Objective

To provide a centralised whole-of-government approach to the procurement of fleet vehicles that provides value for money (through economies of scale discounts from vehicle suppliers), safe, and fit-for-purpose fleet management services that empower government and government-funded organisations to manage their vehicles responsibly, efficiently, and safely.

Description

QFleet is a commercialised business unit and is responsible for whole-of-government fleet management and advisory services. These services include vehicle procurement and contract management, fleet advisory services to public sector departments, as well as government-funded organisations, in-service maintenance, accident management, end-of-life repairs and vehicle remarketing.

Service standards	2025-26 Target/Est.	2025-26 Est. Actual	2026-27 Target/Est.
Effectiveness measures			
Percentage of QFleet vehicles with 5-star ANCAP safety rating	90%	93%	90%
Fleet vehicle utilisation compared to agreed leased parameters[1]	90%	75%	90%
Efficiency measures			
Total current assets over total current liabilities[2]	4.37:1	1.54:1	3.18:1
Financial return as a percentage of total net assets[3]	5.4%	10.4%	6.0%
Total net debt as a percentage of total capital[4]	72.1%	68.3%	69.3%

Notes:

1. The variance between 2025-26 Target/Estimate and the 2025-26 Estimated Actual is due to agency vehicle usage being lower than the lease package. QFleet is working with agencies to review the terms of their lease package to align with actual use and flexible work arrangements.
2. This measure reflects the ability to meet short-term debt obligations and is measured by comparing the level of Current Assets to Current liabilities at 30 June. The variance between the 2025-26 Target/Estimate and the 2025-26 Estimated Actuals is mainly due to increased provisions for dividend and income tax due to a higher operating surplus and movements in cash balances and vehicles held for sale as part of normal business operations. The variance between the 2025-26 Estimated Actuals and the 2026-27 Target/Estimate is mainly due to a reduction in the provision for taxation and dividends due to a lower anticipated operating surplus in 2026-27. The variance between 2025-26 Target/Estimate and the 2026-27 Target/Estimate is mainly due to movements in cash balances and vehicles held for sale as part of normal business operations and an increase in the provision for dividend payable from higher anticipated surplus in 2026-27 and higher payables as the result of planned vehicle purchases in June 2027.
3. This measure represents the level of financial return (as a percentage) the assets of the business are generating. The variance between the 2025-26 Target/Estimate and the 2025-26 Estimated Actual is mainly due to a higher operating surplus achieved than budgeted. The variance between the 2025-26 Estimated Actual and the 2026-27 Target/Estimate is mainly due to a lower operating surplus in 2026-27 as a result of forecast proceeds on sale of motor vehicles and an increase in depreciation. The variance between 2025-26 Target/Estimate and the 2026-27 Target/Estimate is mainly due to a higher operating surplus anticipated in 2026-27.
4. This measure represents the level of debt as a percentage of the business total capital. The variance between the 2025-26 Target/Estimate and the 2025-26 Estimated Actual is mainly due to a higher operating surplus after tax and dividend resulting in higher equity and a decrease in borrowings.

Budget summary

Staffing

The table below shows the Full Time Equivalents (FTEs) as at the 30 June in the respective years.

Service area	2025-26 Budget	2025-26 Est. Actual[2]	2026-27 Budget[2]
QFleet	39	44	44
Total FTEs[2]	**39**	**44**	**44**

Notes:

1. Corporate FTEs are allocated across the service to which they relate.
2. The variance between 2025-26 Adjusted Budget and 2025-26 Estimated Actual is due to the reallocation of Corporate FTE following the Technology and Digital Services (TDS) machinery-of-government change, to better reflect support and enablement of service delivery demand.

Financial statements

Income statement

Total income in 2026-27 is budgeted to be $244.2 million which is consistent with the 2025-26 Estimated Actual.

Total expenses are budgeted to be $232.2 million, an increase of $18.6 million from the 2025-26 Estimated Actuals mainly reflecting an increase in depreciation due to movements in average fleet size, an increase in supplies and services mainly due to a higher written down value of vehicles budgeted for sale reflecting the net impact of an increase in vehicle purchase prices and the number of vehicles sold, an increase in the cost of comprehensive motor vehicle insurance and increased borrowing costs reflecting higher interest rates and borrowing levels.

Balance sheet

Net assets in 2026-27 are budgeted at $144.2 million which is consistent with the 2025-26 Estimated Actual.

Statutory bodies

Queensland Building and Construction Commission

Overview

The Queensland Building and Construction Commission's (QBCC) vision is to support 'a thriving building and construction industry'. To achieve this vision, the QBCC's purpose is 'working together to strengthen the building and construction industry through fair and transparent regulatory decisions, services and actions'.

The QBCC's objectives are to:

- Protect consumers and promote confidence
- Strengthen regulatory capabilities and services
- Deliver organisational excellence.

The QBCC contributes to the *Government's objectives for the community*[1] by working to provide *A better lifestyle through a stronger economy* and *A plan for Queensland's future* by:

- ensuring compliance across the building and construction sector through proactive and effective regulation, supported by industry oversight to protect home owners, licensees and the broader community
- supporting a strong and sustainable economy through upholding standards and fostering a fair and competitive industry, reducing financial and operational risks associated with defective building work
- strengthening industry capability and consumer awareness through education, guidance, and clear communication that empower individuals to meet regulatory standards
- driving innovation and continuous improvement by modernising systems, processes and services, delivering more efficient, accessible and customer-focused experiences for both licensees and home owners
- delivering an effective and high-performing organisation that upholds fairness, accountability, integrity, and respect in all regulatory activities.

Through these commitments, the QBCC ensures that Queensland's building and construction industry thrives and is well positioned for the future.

Key deliverables

In 2026−27, the QBCC will remain focused on delivering timely and accessible information to tradespeople, home owners and builders in their interactions with the regulator by:

- implementing customer-focused initiatives to enhance service delivery
- improving frontline processes for service delivery and customer support
- enhancing customer experience through initiatives informed by customer research and data analysis
- modernising digital systems to improve information access, customer interactions and regulatory processes
- delivering the Queensland Government's policy reform agenda, including the Building Reg Reno reforms to simplify and streamline building processes across Queensland.

[1] To find out more, go to qld.gov.au and search "government objectives for the community".

Performance statement

Queensland Building and Construction Commission

Objective

To license and regulate the Queensland building and construction industry, provide guidance and education, and offer protection through delivering effective regulatory and home warranty insurance services.

Description

The QBCC is a statutory body established under the *Queensland Building and Construction Commission Act 1991* to regulate the building industry. The key services delivered by the QBCC include:

- licensing **–** issuing and maintaining licences for building and trade contractors, plumbers and drainers, certifiers and pool safety inspectors and owner builder permits
- education and engagement **–** providing tailored education, information and advice to licensees, home owners and industry
- compliance and enforcement **–** conducting proactive regulatory activities to monitor, enforce and promote compliance with legislative obligations
- dispute resolution – offering services to help resolve complaints that arise during building and construction projects
- home warranty insurance management – administering the Queensland Home Warranty Scheme for eligible residential construction work
- adjudication – facilitating the resolution of disputes over progress payments and financial obligations in building and construction projects
- frontline service – connecting customers and providing clear guidance to help them understand their rights, responsibilities and regulatory obligations.

Service standards	2025-26 Target/Est.	2025-26 Est. Actual	2026-27 Target/Est.
Effectiveness measures			
Perception of fairness in decision-making: percentage of survey respondents agree the final decision was fair[1]	65%	59.3%	65%
Percentage of QBCC decisions set aside (within the financial year period) by the Queensland Civil and Administrative Tribunal	10%	9.6%	10%
Percentage of category 4-7 licensee regulatory action cases that result in an improved position to meet the minimum financial requirements for sustainable operation	80%	80%	80%
Percentage of non-compliant plumbing and drainage licensees achieving compliance with notifiable work requirements upon a subsequent re-audit[2]	75%	80%	75%
Percentage of complaints about undisputed monies owed that result in individuals receiving full payment after QBCC involvement[3]	50%	56%	50%

Service standards	2025-26 Target/Est.	2025-26 Est. Actual	2026-27 Target/Est.
Efficiency measure			
Cost to assess and finalise a new licence application made under the *Queensland Building and Construction Commission Act 1991*, the *Building Act 1975*, and the *Plumbing and Drainage Act 2018* [4,5]	$1,712	$1,600	$1,712

Notes:

1. The variance between the 2025-26 Target/Estimate and the 2025-26 Estimated Actual reflects the complexity of achieving decision outcomes that adequately satisfy both parties in a dispute. Further work is being undertaken to ensure transparency in decision making and demonstrate objectivity, unbiased and fact-based outcomes that have followed a consistent and fair process.
2. The positive variance between the 2025-26 Target/Estimate and the 2025-26 Estimated Actual is due to proactive communication, engagement and education with non-compliant licensees. Instances of first and repeated non-compliance with notifiable work requirements continue to reduce as a result of these efforts.
3. The positive variance between the 2025-26 Target/Estimate and the 2025-26 Estimated Actual is due to increased voluntary compliance due to economic pressures, clearer separation of disputed/undisputed matters and greater industry awareness driven by enforcement campaigns.
4. The wording of this service standard has been amended to add the word “Commission” in the title of the Queensland Building and Construction Commission Act 1991. It was previously worded “Cost to assess and finalise a new licence application made under the Queensland Building and Construction Act 1991, the Building Act 1975, and the Plumbing and Drainage Act 2018”. The calculation methodology has not changed.
5. The favourable variance between the 2025-26 Target/Estimate and the 2025-26 Estimated Actual is due to process improvements across the business, improved triaging and the use of technology to process licence applications more efficiently, resulting in a reduction in the overall cost to assess and finalise new applications.

Budgeted summary

Staffing

The table below shows the Full Time Equivalents (FTEs) as at the 30 June in the respective years.

Service area	2025-26 Budget	2025-26 Est. Actual	2026-27 Budget
QBCC	765	765	765
Total FTEs	**765**	**765**	**765**

Capital program

The 2025-26 amounts relate to end-of-lease arrangements. The 2026-27 amount only relates to renewal of motor vehicles.

The table below shows the total capital outlays by the agency in the respective years.

	2025-26 Budget $'000	2025-26 Est. Actual $'000	2026-27 Budget $'000
Capital purchases	7,176	4,010	623
Capital grants	..	..	..
Total capital outlays	**7,176**	**4,010**	**623**

Further information about the Queensland Building and Construction Commission's capital outlays can be found in *Budget Paper No. 3: Capital Statement*.

Financial statements

Income statement

The Budget income for 2026-27 is $435 million, a decrease from the Estimated Actuals for 2025-26 financial year. Other revenue is lower as the Queensland Government provided additional funding support in 2025-26 for business operations and the QBCC received funding from the Queensland Government Digital Fund. Funding support is held centrally and therefore not included in 2026-27 Budget appropriations.

The Budget expense for 2026-27 is $440.8 million, an increase of $10.5 million from the Estimated Actual for the 2025-26 financial year. In 2026-27, the QBCC will continue to invest in modernising systems, workforce capability, enhancing customer services and stakeholder engagement, reducing red tape and improving accessibility, transparency and productivity.

As a result of the adoption of a new Whole of Government chart of accounts this year, there may be some re-allocations between categories in these SDS financial statements.

Balance sheet

The net asset position is estimated to be $420.3 million at 30 June 2027 from an estimated position of $426.2 million in 2025-26. The decrease is expected to be in cash assets due to the deficit forecast for 2026-27.

Residential Tenancies Authority

Overview

The Residential Tenancies Authority (RTA) has a vision to ensure renting that works. The RTA's purpose is to provide fair, valued and impactful rental regulation, legislative information and support services.

The RTA's objectives are to:

- Deliver high quality, consistent, and accessible services
- Support the sector as a secure, adaptable and sustainable business
- Educate and collaborate to create stability and certainty in the community.

The RTA contributes to the *Government's objectives for the community*[1] by working to provide *A better lifestyle through a stronger economy* and *A plan for Queensland's future* by delivering service excellence and empowering people, building strong foundations and collaborating for impact in the rental sector.

Key deliverables

In 2026-27, the RTA will:

- improve service and information quality across all channels
- strengthen our customer first service model that improves experience and accessibility
- optimise digital solutions that improve how customers and stakeholders use and engage with our services
- enhance our use of data to be risk informed and drive regulatory outcomes
- improve performance by strengthening accountability, aligning priorities, and continually refining how we work
- partner with stakeholders to deliver accessible and tailored communication and education activities that support the rental sector.

[1] To find out more, go to qld.gov.au and search "government's objectives for the community."

Performance statement

Residential Tenancies Authority

Objective

Enhance customer service delivery and experiences, regulate and influence the residential rental sector and transform digital service provision.

Description

The RTA:

- offers a range of services to uphold fairness, integrity and balance within the residential rental sector and empower Queenslanders to make informed renting choices
- provides tailored tenancy information, support, targeted information on legislation, and bond management services, and offers a free dispute resolution service to help parties resolve tenancy issues in a cost-effective manner and avoid legal action
- investigates alleged offences under the *Residential Tenancies and Rooming Accommodation Act 2008* with the aim to prevent repeat offending and improve compliance
- monitors rental data and trends and works with all sector groups including tenants, property managers and owners, community and industry stakeholder groups and the Queensland Government to inform and support positive renting outcomes.

Service standards	2025-26 Target/Est.	2025-26 Est. Actual	2026-27 Target/Est.
Effectiveness measures			
Proportion of disputes resolved after parties participated in the conciliation process[1]	70%	77%	70%
Overall client satisfaction with the Residential Tenancies Authority[2]	75%	80%	75%
Efficiency measure			
Total operational cost for Residential Tenancies Authority output (excluding grants) as a proportion of the value of bonds held[3,4]	3.7%	3.4%	2.9%

Notes:

1. The positive variance between the 2025-26 Target/Estimate and the 2025-26 Estimated Actual is due to the RTA's ongoing commitment to adapting to changing customer needs, optimising work practices, alongside a sustained focus on supporting parties to resolve disputes. Alternative outcomes include seeking determination by the Queensland Civil and Administrative Tribunal (QCAT) or for the claim to be abandoned by the parties.
2. The wording of this service standard has been amended to remove reference to "Contact Centre" to better reflect the strategic nature of this measure. It was previously worded "Overall client satisfaction with the Residential Tenancies Authority Contact Centre". This service standard measures the experience across all channels, not only via the contact centre. The calculation methodology has not changed.
3. The positive variance between the 2025-26 Target/Estimate and the 2025-26 Estimated Actual reflects improved efficiency outcomes primarily driven by lower operational expenditure.
4. The decrease between the 2025-26 Target/Est and the 2026-27 Target/Est is due to the improved efficiency outcomes which will continue to be achieved by lower operational expenditure.

Budgeted summary

Staffing

The table below shows the Full Time Equivalents (FTEs) as at the 30 June in the respective years.

Service area	2025-26 Budget	2025-26 Est. Actual	2026-27 Budget
Residential Tenancies Authority	260	238	238
Total FTEs	**260**	**238**	**238**

Financial statements

Income statement

In 2026-27, total expenses are forecast to decrease by $6.2 million to $46.7 million compared to the 2025-26 Budget. This reduction reflects efficiencies identified by the RTA in service delivery, as well as the completion of mandatory projects and initiatives required to deliver the strategic priorities.

The RTA's income is increasing by $4.5 million due to additional grant funding aimed at stabilising its long-term financial position and maintaining service standards.

Balance sheet

The RTA is forecast to be in a negative net asset position of $4.2 million as at 30 June 2026. This position reflects ongoing operational deficits. As a result, the RTA has drawn on its cash reserves. The RTA will use the increase in grant funding to offset this deficit in future financial years.

The RTA's rental bond liabilities of $1.485 billion are fully funded by equivalent cash assets and are not impacted by the RTA's net asset position.

Glossary of terms

Accrual accounting	Recognition of economic events and other financial transactions involving revenue, expenses, assets, liabilities and equity as they occur and reporting in financial statements in the period to which they relate, rather than when a flow of cash occurs.
Administered items	Assets, liabilities, revenues and expenses an entity administers, without discretion, on behalf of the government.
Agency/entity	Used generically to refer to the various organisational units within government that deliver services or otherwise service government objectives. The term can include departments, commercialised business units, statutory bodies or other organisations established by Executive decision.
Appropriation	Funds issued by the Treasurer, under Parliamentary authority, to departments during a financial year for: • delivery of agreed services • administered items • adjustment of the government's equity in agencies, including acquiring of capital.
Balance sheet	A financial statement that reports the assets, liabilities and equity of an entity as at a particular date.
Capital	A term used to refer to an entity's stock of assets and the capital grants it makes to other agencies. Assets include property, plant and equipment, intangible items and inventories that an entity owns/controls and uses in the delivery of services.
Cash flow statement	A financial statement reporting the cash inflows and outflows for an entity's operating, investing and financing activities in a particular period.
Controlled Items	Assets, liabilities, revenues and expenses that are controlled by departments. These relate directly to the departmental operational objectives and arise at the discretion and direction of that department.
Depreciation	The periodic allocation of the cost of physical assets, representing the amount of the asset consumed during a specified time.
Equity	Equity is the residual interest in the assets of the entity after deduction of its liabilities. It usually comprises the entity's accumulated surpluses/losses, capital injections and any reserves.
Equity injection	An increase in the investment of the government in a public sector agency.
Financial statements	Collective description of the income statement, the balance sheet and the cash flow statement for an entity's controlled and administered activities.
Income statement	A financial statement highlighting the accounting surplus or deficit of an entity. It provides an indication of whether the entity has sufficient revenue to meet expenses in the current year, including non-cash costs such as depreciation.
Outcomes	Whole-of-government outcomes are intended to cover all dimensions of community wellbeing. They express the current needs and future aspirations of communities, within a social, economic and environment context.
Own-source revenue	Revenue that is generated by an agency, generally through the sale of goods and services, but it may also include some Federal funding.
Priorities	Key policy areas that will be the focus of government activity.
Services	The actions or activities (including policy development) of an agency which contribute to the achievement of the agency's objectives.
Service area	Related services grouped into a high level service area for communicating the broad types of services delivered by an agency.
Service standard	Define a level of performance that is expected to be achieved appropriate for the service area or service. Service standards are measures of efficiency or effectiveness.
